Agriculture

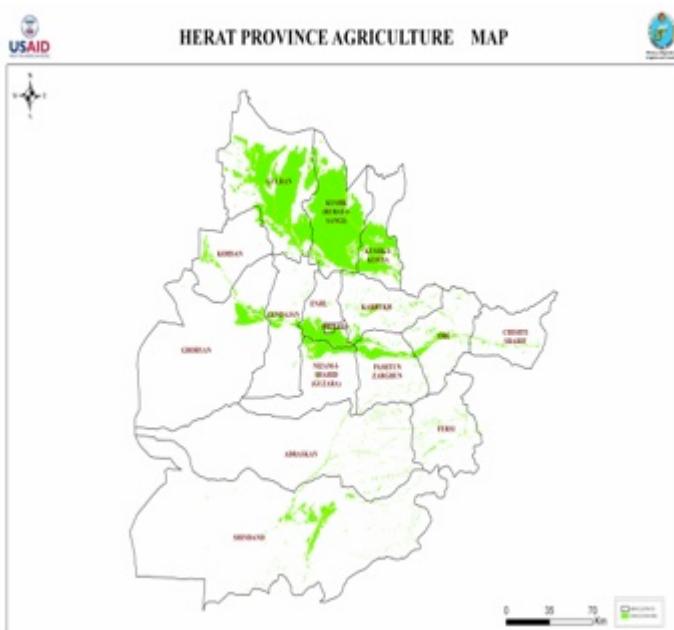

Profile and Data

Herat Province

Herat Brief Introduction:

Herat province is located in the western half of Afghanistan and belongs to the Harirod River basin (34.51-3604 degrees latitude of and 62.67-65.07 degrees longitude). The province shares international borders with the Islamic Republic of Iran to the west and Turkmenistan to the northwest and internal boundaries with Farah province to the south and Badghis and Ghor provinces to the east. Herat is divided into 16 districts that encompass 19,043.12 square kilometers of which 113,212 hectares are used for agricultural purposes. Herat is home to a total of 1,182 villages with an estimated population of 83,200 people as of 2008. The majority of Herat's inhabitants raise sheep, cattle and goats. The province is famous for producing pistachios, cashmere and wool.

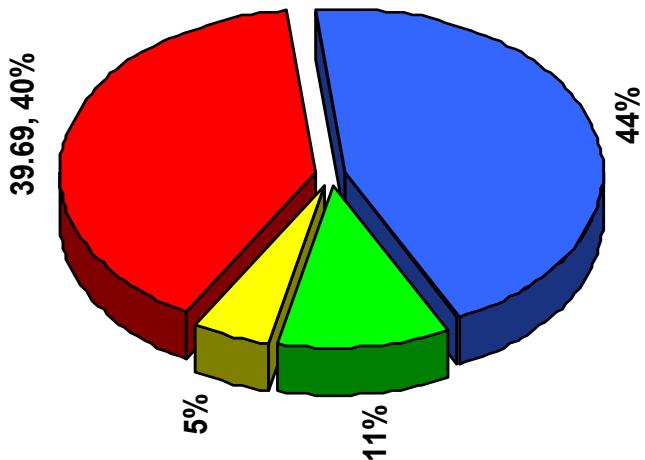

In 2008, farmers in Herat grew 40 different agricultural products on approximately 128,933 hectares of land (2.15 percent of total area). The cultivated land is concentrated mostly in the north and central districts of the province because of the fertile soil of the Harirod River watershed. Seventy percent of the cultivated land is concentrated in 9 northern and central districts of Herat. Farmers living in the 3 northern and 5 eastern and southern districts raise livestock because of the higher elevations and mountainous terrain in the area.

Herat provincial districts are:

- | | | |
|----------------------|--------------------|----------------------|
| 1. Karukh | 6. Zendajan | 11. Gulran |
| 2. Kushk Rubat Shngi | 7. Ghouryan | 12. Fersee |
| 3. Kushk Kohna | 8. Enjil | 13. Pashtun Zarghoon |
| 4. Guzra | 9. Obey | 14. Shendand |
| 5. Adraskan | 10. Chishti Sharif | 15. Herat Center |

Heart's total 2008 crop production was estimated at 723,589 metric tons (MT), mostly consisting of fruit (44.81 percent) and grains (39.60 percent), and of a significantly smaller amount of vegetables (10.75 percent) and industrial crops and animal fodder (4.74 percent). The total market value of Herat's 2008 agricultural output was estimated at \$455.8 million, with no relevant value-added processing.

Of the 15 districts, Kushk Rabat Sangi was the most productive in Herat, contributing 18.23 percent of the Herat's agriculture production. Pashtun Zarghoon followed with 10.64 percent. Obey district come first in terms of fruit production (2 thousand MT). Farmers in Kushk/Rabat Sangi grew the highest volume of grain (49,000 MT) and Gusara and Karukh jointly produced the most vegetables (1,000 MT each) in 2008.

Research Methodology

This report was prepared based on information provided by AgNet/NAIS system. In 2007 and 2008 AgNet Conducted two separate surveys (1) district profile survey and (2) agricultural statistic survey in 19 provinces of Afghanistan with the support of ASAP and MAIL at district level. During a period of 4 months each, more than 50 surveyors collected information related to the number of hectares land cultivated types of products produced number of livestock, crop calendar, sources of water and much more agricultural information. The information presented in this report is based exclusively in the area surveyed, not in the total farm land of the provinces. The AgNet/NAIS data base for Herat is the most accurate database available in the country in spite there is not estimation rewarding the level of exactitude of the information. All data related to harvest amounts was checked in July 2008 by ASAP personnel (Prof. A. Ghani Taj Agricultural Information Specialist and former professor of Kabul University and Ahmad Jawid Abid Survey and Data Assistant) by comparing the national average productivity level of each products. Crop value information was determined on wholesale price in Herat and collected by Herat AgNet officer Mr. Osman and approved by the director of Herat Provincial Agriculture department Mr. Esmaiel Haidar zada in November 2008.

Grains

In 2008, annual grain production surveyed in Herat was approximately 281,195 MT and valued at \$169 million. Major food staples wheat and rice made up almost all (94 percent) of grains (worth \$159 million). The remaining 6 percent comprised crops such as peas, mung bean and barely that valued \$10 million.

Grain	Tons	Value USD \$
Rice	1,334	\$ 1,601,280
Wheat	263,285	\$ 157,941,000
Barely	4,433	\$ 1,773,360
Maize	706	\$ 211,830
Mung bean	1,246	\$ 373,710
Pea	8,998	\$ 6,352,160
Red Bean	403	\$ 483,120
Millets	790	\$ 316,000
Total	281,195	\$ 169,052,460

Farmers grew wheat, barley, mung bean and peas in all districts of Herat province in 2008. Kushk/Rubat Sangi district produced the highest amount of wheat (43.5 percent) and the largest quantity of peas during 2008. Figures presented in the below table are in kg.

	Rice	Wheat	Barely	Maize	Mung bean	Pea	Red bean	Millets
Karukh	38,000	17,219,000	308,000	-	350,000	1,374,000	100,000	117,000

Total	1,334,400	263,285,000	4,433,400	706,100	1,245,700	8,997,700	402,600	790,000

Fruits

Fruits	Tons	Value USD \$
Grape	100,368	\$ 160,300,800
Apple	7,005	\$ 5,568,080
Mulberries	5,238	\$ 2,619,000
Almond	5,411	\$ 16,231,500
Plum	9,841	\$ 4,920,250
Apricot	5,892	\$ 2,945,825
Pomegranate	2,541	\$ 1,524,720
Peach	4,818	\$ 2,399,150
Melon	92,131	\$ 29,021,374
Water melon	93,018	\$ 18,663,520
Other Fruits	2,476	\$ 5,778,296
Total	328,739	\$ 249,972,515

Herat fruit production surveyed in 2008 was estimated at 328,739 MT and valued at over \$249 million. Grapes represented one-third of all fruits by volume, and melons and watermelons accounted for 56 percent of fruit production and generated \$47.6 million.

The level of fruit production varies from district to district. However, farmers grew melons, watermelons, grapes, apricots and peaches in all 15 districts of Herat. Guzra and Shendand produced the highest amount of grapes (about 36.87 percent). While Gulran held the top position (25.6 percent) in terms of melon and watermelon production in 2008, Shendand district produced half of all Herat almonds. Figures presented in the below table are in kg.

	Grape	Apple	Mulberries	Almond	Plum	Apricot	Pomegranate	Peach	Melon	W. Melon	Other. F

Vegetables

Vegetable production surveyed in Herat province during 2008 was estimated at 78,855 MT and valued at almost \$23.5 million. Herat farmers produced more than 10 different types of vegetables, with tomatoes making up the largest volume (36,000 MT) and generating the highest profits (\$11 million). Potatoes, onions, cucumbers and eggplant represent 37 percent of all vegetables produced, bringing \$8.9 million in direct revenue to Herat province.

Vegetable	Tons	Value USD \$
Potato	7,285	\$ 1,748,410
Onion	9,954	\$ 1,990,740
Tomato	35,982	\$ 11,037,720
Eggplant	5,304	\$ 1,591,320
Okra	4,062	\$ 1,208,910
Cucumber	6,867	\$ 4,119,660
Carrot	3,619	\$ 361,850
Cauliflower	2,249	\$ 899,800
Turnip	2,827	\$ 282,620
Other Vegetable	706	\$ 300,456
Total	78,855	\$ 23,541,486

Tomatos, onions, potatoes, eggplant, okra, carrots and turnips are produced in all 15 districts of Herat province. Karukh district is a largest producer of tomatoes (69 percent) followed by Kohsan distrct, which produced 5 million MT of tomato in 2008.

	Potato	Onion	Tomato	Eggplant	Okra	Cucumber	Carrot	Cauliflower	Turnip	Other veg.

Fodder & Industrial Crops

The amount of alfalfa is directly related to the number of livestock raised in the districts. Meanwhile, clover has an indirect relationship with the number of dairy cows and is also consumed in the human diet. Sesame and zafaran are important industrial crops and generated \$6 million for Herat farmers in 2008.

Fodder and Industrial	Tons	Value USD \$
Alfalfa	19,970	\$
Clover	10,240	\$
Cotton	684	\$
Sugar beet	120	\$
Sesame	3,784	\$
Zafaran	2	\$
Total	34,800	\$ 13,100,000

Guzra, Enjil, Obey and Shendand districts produced more than 63 percent of all Heart's alfalfa. Farmer Zarghoon grew the most sesame (28 percent) and 60 percent of all zafaran was produced in Ghouryan district.

	Alfalfa	Clover	Cotton	Sugar beet	Sesame
Karukh	445,000	208,800	34,200	-	82,400

Livestock

Herat is an industrial and agricultural based province of Afghanistan, which economically benefits from its proximity to the Islamic Republic of Iran. Based on the 2008 statistic survey, farmers raise 9 types of household livestock in Herat (See annex –VI).

Province	District	Total livestock	Total Poultry
Herat	Zendajan	28,475	-
	Enjil	10,104	-
	Obey	109,263	118,260
	Ghouryan	140,245	84,360
	Guzra	108,969	-
	Kushk-e Kohsan	165,403	-
	Kushk-e rubat Sangi	204,600	-
	Karukh	105,951	-
	Chishti-e Sharif	33,448	36,490
	Adraskan	113,238	3,599
	Shendand	32,548	9,525
	Kohsan	80,153	20,300
	Gulran	924,349	99,350
	Pashtun Zarghoon	40,642	5,078
	Fersee	8,290	54,200
Total		2,105,678	431,162

In 2008, household livestock kept in Herat numbered 2,105,678, not including 431,162 chickens, ducks and turkeys. Gulran and Rubat Sangi districts raised over half (53.61 percent) of Herat's livestock and the remaining 46.39 percent were found in all other 13 districts of Herat province. Sheep and goats are the dominant household livestock in Heart.

Animals	Cow	Sheep	Goat	Horse	Donkey	Camel	Mule	Total	Cock	Hen	Turkey	Duck	Total
Heads	81,745	1,177,740	738,823	3,470	79,000	24,823	77	2,105,678	108,250	216,682	79,470	26,760	431,162
Percentage	3.88	55.93	35.09	0.16	3.75	1.18	0.004	100%	25.11	50.26	18.43	6.21	100%

Cattle in Heart include oxen and dairy cows. The number of donkeys could be a good indicator for the development of transportation. Farmers in Obey district raised most of the province's poultry (27.4 percent) in 2008.
