

# Application Options

## About Agrochemical applications

Agrochemicals can be applied as liquid, or solid.  
Liquids are applied using a boom or power spray

Method of application	Pros	Cons
Boom*	Good for field crops Uniform application	Not suited for orchards
Power spray	Better suited for orchard crops	May have more drift

\* Photos: Boom picture RHS, Inc., Power Sprayer California Almonds

Method of application	Pros	Cons
Back pack	Cheap Spot applications	Slow
Wheel barrow	Powered	Limited application
Tractor or trailer mounted or pulled	Quick	Expensive
