The figure is a grayscale elevation map of the study area. A legend on the left side defines five elevation ranges using a color gradient from dark purple to light yellow and corresponding shaded slope symbols. The ranges are: 0 - 200 m (dark purple), 200 - 400 m (medium purple), 400 - 1,000 m (light blue-gray), 1,000 - 2,000 m (yellow-green), and > 2,000 m (light yellow). The map shows a complex terrain with varying elevations across the entire region.

- 1,500 - 2,000
- 2,000 - 3,000
- 3,000 - 4,000
- 4,000 - 6,000
- 6,000 - 10,000
