

AFGHANISTAN
URUZGAN PROVINCE
LAND COVER MAP

AIMS

LEGEND	
BOUNDARIES	
International	(Wavy line)
Province	(Wavy line)
District	(Wavy line)
CENTERS	
Capital	(Yellow dot)
District	(Green dot)
Village	(Black dot)
ROADS	
Primary	(Red line)
Secondary	(Orange line)
RIVERS	
Main	(Blue line)
Seasonal	(Light blue line)
LANDCOVER CLASSIFICATION 1993	
Settlements	(Grey)
Fruit Trees	(Red)
Vineyards	(Purple)
Gardens	(Magenta)
Irrigated: Intensively Cultivated (2 Crops/year)	(Light green)
Irrigated: Intensively Cultivated (1 Crop/Year)	(Dark green)
Irrigated: Intermittently Cultivated	(Orange)
Rainfed Crops (flat lying areas)	(Light brown)
Rainfed Crops (sloping areas)	(Dark brown)
Pistachio Forest	(Teal)
Natural Forest (closed cover)	(Dark green)
Natural Forest (open cover)	(Light green)
Degenerate Forest/high Shrubs	(Light brown)
Rangeland (grassland/torbis/no shrubs)	(Light orange)
Rock Outcrop / Bare Soil	(Yellow)
Sand Covered Areas	(Yellow)
Sand Dunes	(Yellow)
Marshland Permanently inundated	(Dark blue)
Marshland Seasonal	(Light blue)
Water Bodies	(Dark blue)
Permanent Snow	(Light blue)

SOURCES:

- This Land Cover Map is based on interpretation of Landsat Thematic Mapper (TM) satellite imagery of Afghanistan, acquired in 1990 (full coverage) and 1993 (partial coverage). The interpretation was assisted through the use of KFA-1000 space photographs of various regions of Afghanistan, acquired from 1988 through to 1992.
- Topographic base used for this map is derived from National 1:100,000 scale topographic maps from the USGS and the Soviet M-1:100,000 scale maps using serial photographs acquired in the late 1950s. The projection of these topographic base maps is UTM, and the coverage of each map is 30 minutes of longitude by 20 minutes of latitude.

NOTE:

The boundaries and names on the maps do not imply official endorsement or acceptance by the United Nations.
